Director & Writer: **Luc Besson**

Luc Besson spent the first years of his life following his parents, scuba diving instructors, around the world. His early life was entirely aquatic. He already showed amazing creativity as a youth, writing early drafts of **The Big Blue** (1988) and **The Fifth Element** (1997), as an adolescent bored in school. He planned on becoming a marine biologist specializing in dolphins until a diving accident at age 17 which rendered him unable to dive any longer. He realized that film was a medium which he could combine all his interests in various arts together, so he began taking odd jobs on various films. He is known for **La Femme Nikita** (1990), **Taxi** (1998), **The Messenger: The Story of Joan of Arc** (1999) and **Taken 2** (2012) as writer.
